AREA 23 · Senior Web Developer

10/18 — Present

Senior Web Developer : Nov 2022 - Present

Mid-level Web Developer : Nov 2020 - Oct 2022

- Work independently or assist senior developers in front-end development deliverables using modern libraries and frameworks such as Next.js, TailwindCSS, GSAP, and vanilla React.
- Lead mid-size projects and mentor junior developers
- Search engine and performance optimization using Chrome dev tools and Lighthouse
- Create reusable components and define use cases with Storybook
- Document project-specific processes, define coding standards, and maintain internal code library
- Cross-department communication and continuous improvement during Agile sprints and CI/CD cycles
- Explore new technologies and brainstorm ideas to improve internal workflow

Junior Web Developer : Oct 2018 - Oct 2020

- Assisted development team members in executing front-end development deliverables using HTML, CSS, JavaScript, and Git for version control
- Debugged issues from Quality Assurance before and after releasing to clients
- Collaborated with graphic designers via Photoshop, Sketch, Illustrator, and Zeplin

Digital Hamsters · Web Designer/Developer

01/17 — 10/18

- Met with clients to understand their business needs, then plan out website design, wireframe and sitemap
- Created and delivered fully responsive and functional websites using HTML, CSS, JavaScript with and without WordPress
- Provided continuous support and maintenance post-launch

thebigword · Chinese-English Interpreter

01/16 — 10/18

- Provided consecutive interpretation services for seasonal Parent-Teacher Conferences and New York City Regents grading sessions
